

Getting your designs from ideas to manufacturing!

Providing you with **clear CAD models and drawings** to ease suppliers quotation and smooth out production.

Ensuring the **highest standards of quality** while prioritizing **productivity at competitive prices**.

Services

MECHANICAL DESIGN	READY FOR MANUFACTURING	REVIEW FOR MANUFACTURING
<ul style="list-style-type: none"> • Preliminary dimensioning • Material selection • 3D design following specifications 	<ul style="list-style-type: none"> • CAD files clean up (incl. parametrics) • 2D drafts ready for fabrication • Bill of materials 	<ul style="list-style-type: none"> • Reviewing of manufacturing files • Suggestions and improvements • Reactive and rapid iteration

Hourly packages* (lifetime discount available**)

Small project (20 hours)	Medium sized project (50 hours)	Large project (120 hours)
1400 CHF (1750 \$) 1000 CHF (1250 \$)	3250 CHF (4060 \$) 2300 CHF (2875 \$)	7200 CHF (9000 \$) 5000 CHF (6250 \$)

We use Solidworks and Onshape. If you need native files in Thinkdesign, Fusion 360, Catia or Inventor, this is possible as long as you provide a license, whether it be through VPN access or an internal VM.

* A package can include all services cited above but we tailor it to your needs in the scope review. Fees will be charged for "on the fly" changes.

**If you buy one pack now, this price will be guaranteed to you for the same pack, even when the discount ends.

Contact us for more information or for a quick scope review of your project(s)!
